

2021 COVID-19 Update 2

Dear Parents, Guardians and Students

It was incredibly disappointing not to have commenced classes for 2021 today as we have such an exciting year planned. I know our Year 7 students and other new students are ready to begin their Kennedy journey and I would like to assure you that our Staff will be working this week to further prepare for the year ahead.

We will make adjustments to compensate for this loss of curriculum time and strategies will be in place to minimize the impact of this disruption. Similarly, we will be planning measures to implement "off campus" learning if the need eventuates. Depending on further directives from the government, formal classes will commence on Monday 8 February in some form.

Our 2020 experiences gave us a good understanding of how to deal with this constantly changing situation. Our staff and students managed very well in 2020 and we will continue to work toward continuing to provide excellent educational services for our families.

After multiple meetings today, I know that Heads of Year, Curriculum Leaders and other pastoral staff will be communicating to families via direct message on SEQTA in the next day or two so please be vigilant in checking SEQTA for these messages. We are aware that new families do not yet have access to SEQTA and we are in the process of providing these details as soon as possible.

Hoping to see everyone on campus next Monday.

Regards

Mr Mark Ashby

Principal
