Assessment Policy – Supplementary Details

The College Assessment Policy still applies during the period of curriculum continuity through online learning. In particular the College will implement procedures in accordance with section 4.10.

4.10 Procedures to be implemented if assessment is affected by a catastrophic event

If the assessment of individual students or groups of students is affected by a catastrophic event (e.g. if a pandemic causes a number of staff and/or students to be absent from school for an extended period) the following will occur:

-  Review the completed assessment tasks. The teacher or HoLA makes a professional judgement of the performance of the students affected by the event.
-  Where additional assessment tasks are required to enable a professional judgement to be made, the assessment outline is modified for the students affected by the event.
-  The school informs the students affected by the event (and parents/guardians/carers) of the changes to how their achievement will be determined, including any additional assessment tasks.

Implementation of the practical steps of this policy will continue to evolve.
